ABOUT THE EVENT

The World Bank's Forum for Agricultural Risk Management (FARMD) Annual Conference: **Managing Agricultural Risks in a Changing Climate in Sub-Saharan Africa** takes place on November 4-5, 2014 in Johannesburg, South Africa. The objective of the event is to explore how climate change is impacting agricultural production and marketing systems in Africa and to understand the implications for agricultural risk management.

STRUCTURE

The two-day conference will bring together more than 200 participants from the public and private sectors, academia, farmer organizations, and development organizations. Attendees will have the chance to interact with leading experts in the field and to attend sessions on a range of topics related to agricultural risk management and climate change. Sessions will include presentations on a specific theme and a panel discussion, followed by Q&A.

KEYNOTE SPEAKERS

Dr. Bruce Campbell is the Director of the CGIAR Research Programme on Climate Change, Agriculture and Food Security (CCAFS), and an expert in interdisciplinary approaches to natural resource management for development.

Dr. David Ameyaw is the Director of Strategy, Monitoring & Evaluation for the Alliance for a Green Revolution in Africa (AGRA) and a founding member of the Ghana M&E Forum. Previously, he served as the Director of M&E at the Millennium Challenge Corporation.
